

# 7 POWERFUL SOFT SKILLS

## TECHNIQUES FOR STUDENTS OF ICMA

### Introduction

Soft Skills are the traits, characteristics, habits, and skills needed to survive and thrive in the modern work world. A student needs to carve out such skills especially soft skills by practicing every day. These skills will be helpful not only in academic life but in future as well.

This soft skills training workshop will teach you how to develop the skills that can make the difference between a lackluster career that tops out at middle management versus one that lands you in the executive suite or wherever you define career success.

This soft skills training workshop will give you an edge over your competitors. It will also make your academics, career and life more rewarding and enjoyable. You need to become excellent in your soft skills. There is nothing hard when it comes to learning soft skills, as long as you have a willingness to try new things and start right now.

### At the end of the workshop student will be able to

- Understand how to be a great communicator
- Become a stronger listener
- Appear professional to colleagues and bosses of all ages
- Avoid common career blunders that often end careers
- Manage expectations of teachers, colleagues and bosses
- Position yourself for promotions
- Building creativity
- Make technology your asset, even if you are afraid of technology
- Develop EQ to Match Your IQ
- Develop leadership qualities
